Statewide, farming has a unique connection to the history of Maine. Farmers are stewards of the land; well-managed farmland protects natural resources and creates beautiful open space. Many of Maine’s first settlers were farmers whose fields, farmhouses and barns shaped Maine’s historic landscape. Today, Maine’s agricultural producers and processors annually contribute over 1.2 billion dollars to Maine’s economy and employ 65,000 Maine people!

Prime Soils in York County

PRIME FARMLAND

The U.S. Department of Agriculture defines prime farmland as the land that is best suited to producing food, feed, forage, fiber and oilseed crops. It has the soil quality, growing season, and moisture supply needed to produce a sustained high yield of crops while using acceptable farming methods. Prime Farmland produces the highest yields and requires minimal amounts of energy and economic resources, and farming it results in the least damage to the environment. Prime Farmland is a limited strategic resource. No more of it is being created.

30,397 acres (estimated)

SOILS OF STATEWIDE IMPORTANCE

This is land, in addition to prime and unique farmlands, that is of statewide significance for the production of food, feed, fiber, forage, and oilseed crops. Criteria for defining and delineating this land are to be determined by the USDA Natural Resources Conservation Service. Generally, additional farmlands of statewide importance include those that are nearly prime farmland and that economically produce a high yield as prime farmlands if conditions are favorable.

155,371 acres (estimated)

Annual Statewide Events and Programs in 2003

Maine Maple Sunday (4th Sunday in March) 11 farms opened their sugarhouses.

Open Farm Day (4th Sunday in July) 13 farms welcomed the public onto their farms.

Maine Menus Month (October) 19 restaurants made special efforts to feature Maine grown, raised or harvested ingredients on their menus.

Great Maine Apple Day (November) many farms celebrated Maine’s apple harvest.

Maine Senior FarmShare assisted 14 farmers with providing locally grown produce to 753 low-income seniors. Statewide, 185 farmers benefited from nearly \$900,000 in sales and additional seniors received fresh produce through food pantries and community meal sites.
